WHEELER'S CENTRAL GEORGIA NURSERIES

CLINTON RD. — ROUTE 5 — MACON, GA.

5 MILES N. OF MACON, U. S. 129 — GRAY HWY.

Telephone SH 5-3131

R. L. WHEELER

--

CARL WHEELER, Mgr.

FRANK HAWKINS

PRICE LIST 1960 — 1961

LOCATION: Our Nursery is Located in the Geographical Center of Georgia. Five Miles North of Macon, U. S. 129 to Gray. Macon is our Shipping Point.

Our Nursery has served Middle Georgia from this same location since 1920. Let our years of experience in landscaping and growing beautiful plants help you with your new home grounds.

We shall be delighted to have you visit our Nursery and see our complete line of shrubbery, fruit nut, shade trees and thousands of Camellias. Our plants vary in sizes to fit your budget.

On request, a member of our personnel will visit your home and give you free estimate of the plants you need. We also offer planting service.

We recommend that planting be done from mid October through March.

TERMS OF SALE AND SHIPMENTS

Please send your remittance with your order. Georgia customers add 3% sales tax to the total. Prices in this catalog are subject to change without notice, and are all F. O. B. Macon, Georgia. Please specify the way you wish to have us make shipment (express, motor freight, railroad freight or air freight.) When no instructions are given we will ship via Railway Express. We make no crating charge on orders over \$20.00, but if your order amounts to less than \$20.00, please add \$1.00 for the first plant and 25c for each additional plant ordered in order to cover crating cost.

We will endeavor to send out orders as near the date specified as possible, and will do everything in our power to insure Satisfactory Delivery to our customers, but our responsibility ceases upon delivery to carrier in good condition, insofar as damage in transit are concerned. Should your shipment be delayed or damaged in transit, please file claim with transportation company immediately.

This season, we are celebrating our 41st Anniversary in the Nursery business in this location. Our sales yard will be chocked full of bargains from October through April.

We now have facilities to protect about two thousand Camellia plants from the extreme cold. Now you can purchase Camellias for gifts or for yourself and be sure you get sound buds. We should have blossoms from November through April in these houses. If you don't have room for any more plants in your garden, we would be very glad to have you visit our nursery and go through Camellia houses.

We have a wooded area in pines adjoining our sales yard area with several acres planted in Camellias some 25 years old. We invite you out to see them during the Camellia blooming season.

ATTENTION NEW HOME OWNERS

(It Aint A Home Till It's Planted)

Do you know it really isn't expensive to have a planned design of the correctly planted shrubs around your home.

It is important to plant shrubs in the right place, depth, exposure etc. So call and let us give you an estimate. We will tell you what we suggest or correctly place the plants that appeal to you.

Azalea and Camellia Spray Schedule

We recommend using 4 tablespoons of Florida Volck paste emulsion and 4 teaspoons of Isotox Garden Spray mix per 1 gallon of water as a spray. One application soon after blooming season in spring, usually late April. If first application doesn't kill all scale, spray again 10 days later. Another application can be made in September. Try to spray when temperatures are between 40 and 80 degrees

PLANTING CAMELLIAS

Camellias will grow and prosper under widely varying conditions as to soil and temperatures, but it is absolutely essential that they have good drainage. Some of the paramount factors to consider in camellia culture are as follows:

1. Plant in well-drained acid soil.
2. Plant in Fall and Winter to allow time for root growth before spring.
3. Plants should be set in ground at same level or higher than it was grown. DO NOT PLANT TOO DEEP!
4. Water during periods of drouth the first summer after transplanting.
5. Fertilize with balanced fertilizer in February and July each year.
6. Keep plants free of insect pests.

HEDGE PLANTS — Some of these plants will require shearing, and others will make informal hedges with little maintainance.

ABELIA	GARDENIA	PHOTENIA
BOXWOOD	HOLLIES	PITTISPORIUM
CAMELLIA	LIGUSTRUM	PRODOCARPUS
SASANQUA	NANDINA	PYRACANTHA
ELEAGNUS	TEA OLIVE	AZALEAS INDICA

LOW GROWING PLANTS

DWARF GARDENIA	DWARF EUONYMOUS
ILEX ROTUNDA	LONICERA YUNANSIS
ILEX HELLERII	AZALEAS KURUME
JUNIPERS PROSTRATE	ILEX NANA
BOXWOOD	

SHADE PLANTS — Require certain amount of shade to do well.

ACUBA	IVIES	FATSHEDRA
MAHONIA	ASPIDISTRA	SARCOCOCCA
FATSIA		

CAMELLIAS AND AZALEAS — Need some shade.

THORNY PLANTS

	HARDY ORANGE	BARBERRY

LADY MACON

Our magnificant new seedling **No. 459** has been named **LADY MACON**. This is a very large vivid pink anemone form being a shade lighter than Wildwood. It is a beautiful grower and is not tempermental. Our original plant is in the coldest spot in our nursery, even so it preforms beautifully. When placed inside with a bit of pampering the blooms mushroom to a tremendous size. Its blooming season is late midseason to late.

In January 1960 Camellia Journal, we asked for people to submit a name for this magificiant flower. We had over 500 names submitted from all over America and three foreign countries. We thought the response was tremendous. Since Macon is the home of the American Camellia Society, we thought it very fitting to select the name submitted by Mrs. M. D. Hodges of Milledgeville, Georgia, which was **LADY MACON**. She will receive a 2 year budded plant of Lady Macon, as a prize.

Other articles written about **LADY MACON** appeared as follows:

ASC Journal	January 1960	Page 14
CAMELLIAN	September 1959	Page 17
ACS Yearbook	1959	Page 90
ACS Journal Supplement	June 1960	Page 2 & 4

We are not sold out and are not short of these plants.

We have a good selection of healthy plants, well budded in containers.

PRICES (No packing charge)

Budded Plants	\$35.00
Few Heavy Plants & Buds	\$50.00
1 Year Grafts	\$25.00

CAMELLIAS DESCRIBED BELOW ARE OUR SEEDLINGS INTRODUCED BY US. They are picked from Thousands of seedlings and have shown up well under years of Testing.

OUR INTRODUCTIONS

JOHN HOUSER

A LARGE INCOMPLETE DOUBLE LIGHT WILD-WOOD PINK. It blooms early or we should say over a long period, from October to March. An excellent grower with strong stems and handsome foliage. We have had this variety under observation several years and it has proven most satisfactory outside.

VIRGINIA RICH

The flowers are medium size double with most extraordinary formation and color combination. There are 5 creamy, almost yellow, petals in the center surrounded by 15 white petals then 3 rows of light pink petals. The remaining 30 petals are pink changing to orchid on its outer edges. Growth is fairly slow and foliage is thick and waxy green with very strong stems.

MARY WHEELER

Orchid Pink to Light Pink to White. Large peony form with waved petals twisted toward center mixed with stamens. Its coloring is most beautiful and unusual. The blossoms are about 4 inches and incomplete double. **IT WON FOUR AMERICAN CAMELLIA SOCIETY HIGHLY COMMENDED SEEDLING CERTIFICATES IN 1957.** We think it is tops, and that it will attract as much attention as our R. L. WHEELER. This lovely Camellia is named for Mrs. Carl Wheeler of Central Georgia Nurseries.

CAROLYN WILLIS

A most beautiful new seedling release. The flowers are very large, incomplete double with petals twisted and curled toward the center with much depth. It has a very wide variation of color patterns with several shades of pink and red on the white background.

Cecile Brunazzi, an outstanding medium light pink that produces large incomplete double blossoms in January and February, has a formation somewhat similar to our Mary Anne Houser; but the color is lighter pink.

Faye Wheeler is a large deep incomplete double light pink with waxy, wavy petals which form a most beautiful flower. It is named for Miss Faye Wheeler daughter of R. L. Wheeler, Central Georgia Nurseries, Macon. Ga. It has won best seedling in Atlanta Show and won the American Camellia Society Award of Merit.

Anne Griffin is a very large incomplete double rose pink. The petals are twisted and curled toward the center giving much depth to the flower. It was the best seedling in the Marshallville, Georgia Show.

Marjorie Huckabee is an incomplete double light waxy pink medium to large flowers with petaloids and stamens intermixed. It is a strong upright grower.

R. L. WHEELER

R. L. Wheeler (plant Patent No. 1137) is a very large semi-double to incomplete double rose. Heavy convoluted guard petals with numerous bold circular stamens intermixed with petaloids. Sometimes blossoms do not have petaloids. Many plants produce solid and variegated flowers. It has strong upright growth with large dark green foliage. It has stood weather extremes exceedingly well. Blooms midseason. Has won numerous shows and awards of merit.

Large Specimens Priced On Request

**If you wish to graft R. L. Wheeler we sell Patent Labels
@ 50c each**

Mary Anne Houser is a very large and deep incomplete double rose with large petaloids irregular formed. Foliage medium green and the plant is an upright grower. The variegated forms usually have variegated leaves and the pink is usually not as dark as in the solid form. A very outstanding flower. A winner of the American Camellia Society Award of Merit in the Macon show, best in the Atlanta show. It is named for the daughter of Dr. and Mrs. Frank Houser, of Macon, Georgia.

Kitty Berry is a very fine peony form light peach pink usually having 10 large outer petals and numerous ruffled and fluted petaloids in its center with practically no stamens visible. The growth is rapid and upright. This flower is named for Mrs. Russell R. Berry, Macon, Ga.

Sallie Mays is a medium large semi-double to incomplete double light pink having a slight orchid shading. Flowers have 25 petals on 5 rows and a few petaloids. It is a compact upright grower.

Miriam Stevenson is a semi-double to incomplete double and a most beautiful shade of light pink. Flowers 4 - 6 inches are usually semi-double, but many come incomplete double with cluster of prominent stamens and petaloids. Also comes variegated. It has won the American Camellia Society Award of Merit and the best seedling in the Atlanta show.

Eddie G. Wheeler is a gorgeous soft pink of Donckaleri form having a beautiful and distinctive sheen of bright golden stamens. It is a slow compact grower with free flowering. Stands extreme cold well. Blooms very late, also comes variegated. It is named for Mrs. R. L. Wheeler, Macon, Georgia.

Arlene Ignico is a loosely formed incomplete double rose resembling *reticulata* in flower and foliage. Comes variegated.

Wheeler's Fragrant seems to be a cross of James H. Porter and Herme. A large semi-double with Herme coloring. Foliage is large and plant growth is semi upright and rapid. Original seedling has half dozen sports. Blooms early and is most satisfactory.

Lois Norvell is a very dark red semi-double of unusual form. Will definitely stand lots of cold weather. Also comes variegated.

Mynelle Hayward is a beautiful light pink peony form flower of a lighter shade than *Debutante* being 3½ - 4½ inches. It has irregular petals and a formation all its own. Compact upright grower of medium rapidity. Flowers have 10 - 17 petals and up to 90 petaloids.

Rivers Yerger is a large peony form white flower flecked with pink spots and stripes varying in formation and number of petaloids. Blooms midseason. This variety also throws occasional sports some being solid in color. Medium compact and upright grower.

Eunice Buckley is an extremely large semi-double flat rose pink with water lilly petals. Flowers have approximately 15 petals and occasional petaloids. Has vigorous compact upright growth. Blooms late midseason. Also comes variegated.

Dixie Knight is a very large dark cherry red incomplete double. Flower has large petaloids surrounding stamens to form 5 distinct groups. The dept of flower compares to that of *Mathotiana Supreme*. Blooms midseason and growth is upright and vigorous.

Variegated Dixie Knight is a most outstanding flower and one of the nicest we have seen.

Fine Camellias

Most of the varieties listed can be had with bloom buds (even in 12-18 inch size if ordered early.)
